

TANMAYA S AIL

MERN Stack Developer | Full Stack Developer

Uppala, Kerala | +91 9995348408 | ailtanmay12@gmail.com | linkedin.com/in/tanmay-s-ail-882a772a1 | github.com/HellTanmay

OBJECTIVE

MCA graduate with strong analytical, problem-solving, and software development skills. Seeking a Software Developer role where I can contribute to the design and development of high-quality applications while advancing my professional growth in a collaborative environment.

TECHNICAL SKILLS

Languages: Javascript, Typescript, Python, Java, C++, PHP

Frameworks & Libraries: React.js, Node.js, Express.js, Redux Toolkit, React Native, Laravel, Flask, Scikit-learn, Tailwind CSS, Bootstrap

Databases & Tools: MongoDB, MySQL | Git, GitHub, VS Code, Postman, npm, Jupyter Notebook

EXPERIENCE

Full Stack Developer Intern — Techpath Learning Pvt. Ltd.

Jan 2026–May 2026

Kodialbail, Mangalore

- Contributed to the development and enhancement of enterprise ERP modules using Laravel, PHP, JavaScript, and MySQL.
- Developed reporting and analytics features, including user activity tracking, module adoption metrics, and system usage logs.
- Collaborated with cross-functional teams using Git-based workflows and agile development practices to deliver production-ready solutions.

PROJECTS

SkillBites — E-Learning Platform

May 2024 | Academic

- Full-stack learning platform where teachers can create and publish courses and students can enroll and access resources.
- Implemented JWT-based authentication, Cloudinary for media uploads, and Razorpay for payment integration.

Tech: MongoDB, Express.js, React.js, Node.js, Cloudinary, Razorpay

Career Readiness Guidance System

Oct 2025 | Hackathon

- AI-powered career guidance platform that evaluates HR, technical, and problem-solving responses to provide personalized career feedback.
- Led integration of multiple modules developed by team members; built core frontend components in React.js.
- Integrated GenAI APIs with a Python/Flask backend connected to MongoDB for data persistence.

Tech: React.js, Flask, Python, GenAI, MongoDB, GitHub

Customer Churn Prediction Web App

Nov 2025 | Academic

- End-to-end ML web application predicting customer churn using Random Forest with SMOTE oversampling on the Telco dataset.
- Achieved 78% accuracy on unseen data; served predictions via streamlit.

Tech: Python, streamlit, Scikit-learn

Enterprise Resource Planning (ERP) System

Jan 2026 | Internship Project

- Contributed to the development and maintenance of enterprise ERP modules using Laravel, PHP, JavaScript, and MySQL.
- Implemented role-based access control, user management, menu permissions, and RESTful API functionalities.
- Developed reporting, analytics, and activity tracking features to support operational and administrative workflows.
- Collaborated in an agile development environment using Git-based version control and code review practices.

Tech: PHP, Laravel, MySQL, JavaScript, Bootstrap, Git

EDUCATION

Master of Computer Applications (MCA)

2024–2026

St Aloysius (Deemed to be University), Beeri, Mangalore

CGPA: 8.43/10

Bachelor of Computer Applications (BCA)

2021–2024

Srinivas University, Pandeshwar, Mangalore

CGPA: 9.37/10

CERTIFICATIONS & ACHIEVEMENTS

- Developing Front-End Apps with React — IBM (Aug 2025)
- Object Oriented System Development Using UML, Java and Patterns — NPTEL (Apr 2025)
- Artificial Intelligence for All (Feb 2025)
- National Level Hackathon Participant — Nitte Institute of Professional Education (Oct 2025)
